Reasons for Allowance

The following is an examiner's statement of reasons for allowance: the primary reason for allowance is the inclusion of pivoting pawl attached to the sliding first clamp, the pawl having a pair of spaced apart teeth that are received within respective apertures of the cross member when an engagement portion of the pawl is subject to a manual force sufficient to cause pivoting of the pawl. The prior art of record fails to teach or suggest the claimed features absent the applicant's own disclosure.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
